Appreciation letter for Kagunda School

As Kagunda primary School, we really appreciate your gesture of giving us these mathematics books for Grades 8 and 9.

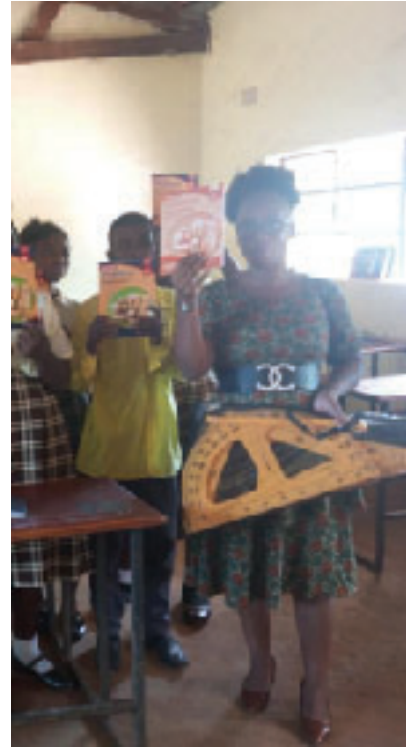

This will really help us during preparations for teaching, and help our learners to understand the subject with much ease.

As a subject Teacher, I really had serious challenges in teaching mathematics at our school, as the whole school we only had 1 copy for the grade 8 class and only 2 copies for the grade 9 class.

Thank you very much for this gift, and God bless you.

I also want to let you know that, we also have challenges with integrated science books for both grades 8 and grade 9, including the apparatus.

Banda Barbra,
Subject Teacher,
Kagunda primary School
